CORRUPTION RISK MANAGEMENT WORKSHOP

CRM

WORKSHOP OVERVIEW & OBJECTIVES

This is a specially designed programme for senior personnel currently working in the public/private sector. The underpinning rationale for the programme is to provide participants with a range of new corruption risk management techniques that will enhance integrity and promote new forms of accountability and transparency. The emphasis during this five-day workshop will be on exploring and using non-accusatory assessment and development processes that can be applied to public/ private sector organizations. In addition, participants will be invited to use their experience and skills in designing, developing and installing new strategies. A significant part of the programme will involve practical work including applied learning through a programmed project. The aim of the programme is to provide participants with a tool box of new and innovative techniques that they can apply in a public/private sector workplace that will help prevent corruption and lower the risk of unethical behaviors. The process helps to enhance forms of accountability, improve transparency and raise standards of integrity.

DESIRED LEARNING OUTCOMES

- Knowledge of a new range of corruption risk management techniques using a new and unique assessment process.
- The necessary skills and resources to apply the techniques.
- An understanding of the need for different levels and processes of intervention and how to access organizational readiness for a change.
- A range of support resources and advice notes.

WORKSHOP OUTCOMES

By the end of the programme, participants will have been exposed to :

- The anatomy of corruption in public/private sector organizations
- A range of anti-corruption strategies and techniques
- The identification of corruption risk management
- The corruption risk management techniques of corruption risk hot-spots
- How to achieve 'buy-in'
- How to develop effective corruption risk management strategies
- How to design, develop, install and implement a corruption risk management plan
- The dynamics of organizational and mindset change
- A range of support resources and advice notes.

PROGRAMME APPROACH

- Thematic presentation
- Case Study analysis
- Simulation exercises
- Discussion groups
- Site visit
